# QUARTERLY PORK REVIEW

VOLUME 1, ISSUE 3

JUNE 2010

**WELCOME** to the third issue of the *Quarterly Pork Review*! Again, our thanks to all participants from the pork industry for their continued support and cooperation – especially the producers who provide data for the quarterly *Hogs and Pigs* surveys. Without their commitment and participation, this report would not be available.

This publication is a compilation of related reports issued by USDA's National Agricultural Statistics Service (NASS) in an effort to provide a complete source of statistics relevant to the pork industry.

Though many of the statistics in this publication can be accessed through our website on a monthly basis ([www.nass.usda.gov/Publications](http://www.nass.usda.gov/Publications)), this Oklahoma Field Office summary will be issued each quarter following the release of the USDA-NASS *Quarterly Hogs and Pigs* report.

Please feel free to contact our office with any comments or questions you may have. I hope you find this information useful!

## MONTHLY PRICES

**All Hogs and Pigs: Monthly Prices Received, Oklahoma, 2008-2010**

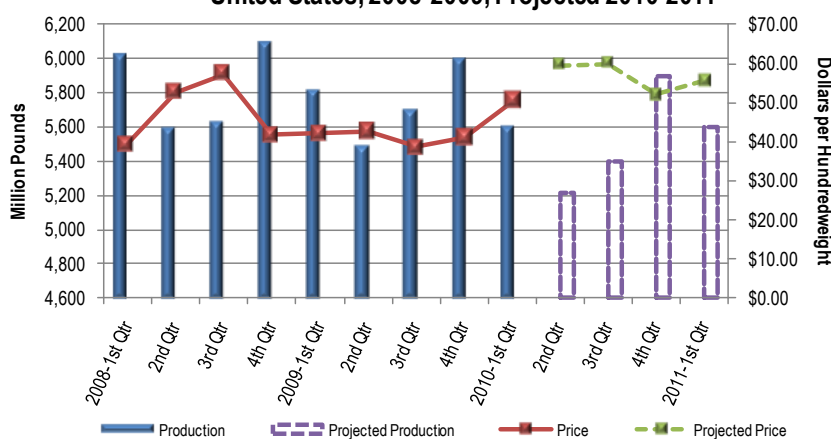

**May 2010 average monthly price** for Oklahoma's barrows and gilts was \$56.00 per cwt, while the average at mid-June was \$53.00 per cwt. Sow prices moved from \$53.80 to \$51.80 for the same period. All hog price was calculated at \$55.60 for May and \$52.80 for mid-June.

## PRODUCTION AND PRICE OUTLOOK

**Pork Production and Price by Quarter, United States, 2008-2009, Projected 2010-2011**

**Hog slaughter** has slowed more than anticipated for the second quarter of 2010. This decrease is primarily due to lower hog imports from Canada. Slightly higher average dressed weights are expected to lessen the production effects of lower slaughter numbers. **Hog prices** are expected to remain well above last year's prices.
